# About Us

The Institute for Development and Entrepreneurship TIRI PAMODZI, which means "We Are Together," is a Mozambican organization dedicated to empowering young people and women by promoting entrepreneurship as a tool for social transformation. Founded with the mission to turn dreams into tangible realities, TIRI PAMODZI acts as a catalyst for personal and community development, offering training, mentorship, and ongoing support to those who seek to build a better future.

# MISSION

At TIRI PAMODZI, our mission is clear: to promote social support initiatives for economically vulnerable groups by creating a sustainable culture of entrepreneurship among young people and women. We believe that by empowering individuals, we are not only strengthening their abilities but also ensuring that they actively contribute to the economic and social development of their communities. Our goal is to help each person reach their full potential by providing the tools and resources necessary to turn their ideas into successful ventures.

*Tiri Pamodzi's mission is to promote entrepreneurship and develop projects, in partnership with public and private entities, aimed at the business and social development of young people and women in Mozambique.*
